ABOUT THE SPEAKERS

Steve Barnett PE, CIH, MSPH, Esq.

Partner, Environmental Law, Connell Foley LLP

Steve Barnett is an experienced attorney who applies a unique combination of industrial hygiene, engineering and legal skills to make his client's case in toxic tort and environmental matters. Steve is a Professional Engineer (PE), Certified Industrial Hygienist (CIH), and holds a Master of Science in Public Health, Industrial Hygiene Emphasis. He is formerly Counsel - Health, Safety & Environment for the specialty chemicals manufacturer, Elementis and previously a Captain, United States Air Force, Bioenvironmental Engineer. Mr. Barnett was Past President of the NJ section of the American Industrial Hygiene Association (NJAIHA)

Bernard L Fontaine, Jr. CIH, CSP, FAIHA

Managing Partner, The Windsor Consulting Group, Inc.

At Windsor Consulting Group, Inc., the focus is growing the business through marketing and sales of occupational and environmental health and safety services using the most qualified personnel – CIH, CSP, and Fellow and Distinguished Lecturer of AIHA. Business development covers all types of general industry (manufacture, process, and services), construction (building, bridges, tunnels, roadways, and demolition), maritime and marine (ports, terminals, and shipyards), upstream and downstream oil and gas production, energy and renewable sources, mining and mineral process, insurance, national defense, environmental (planning and development), logistics and transportation.

Besides being a trusted partner to business and industry, Mr. Fontaine is the President-Elect of the NJ section of the American Industrial Hygiene Association (NJAIHA) and Board of Director member of Workplace Health Without Borders (WHWB). Both NGOs provide support regarding industrial hygiene and occupational health. In these capacities, Mr. Fontaine provides direction for fund rasiings and project initiatives to protect workers from crystalline silica dust in brick kiln and agate workers, heavy metal exposures in artisanal mining in Africa, and training and education to both graduate and medical students in a variety of developing countries. As a charity, WHWB seeks to partner with allied organizations around the world.
